

## Welcome to our data center Amsterdam 2

Thank you for your interest in NorthC. Please feel free to contact us if you want to know more about this location and our services.

[Contact us](#)

# Regional data centers with international reach

Our data centers are spread across the Netherlands, Germany and Switzerland. We are located in the center of one of the most important digital hubs in Europe: the metropolitan region of Amsterdam, as well as in the heart of Bavaria in Germany and with Biel and Basel in the economically strong regions of Switzerland. We are convinced that a platform of regional data centers with a wide geographic reach allows our customers to optimize their redundant infrastructure and for them to benefit from regional ecosystems.

## Sustainable Data Centers: Carbon Neutral by 2030

- ✓ Green hydrogen
- ✓ Green energy
- ✓ Data center waste heat
- ✓ Modular Construction

Our mission 2030

At NorthC, we are committed to consistent quality and reliability. That's why we are upgrading our Amsterdam 2 data center, which we acquired in August 2025, to our trusted NorthC standard. This ensures the same high level of availability, security, and continuity across all our locations.

## Current facilities

### Power

- ✓ Installed electrical power 3,44 MW
- ✓ Single power feeds
- ✓ UPS systems 3,44 MW
- ✓ Generator redundancy: according to Tier 2 standard, 4 x 1,7 MVA

### Security

- ✓ Layered security, remote 24/7 CCTV
- ✓ The site is partially fenced, has blind walls and is closed off with an entrance gate.

### Fire safety

- ✓ Dry pipe sprinkler system and early warning detection systems

### Cooling

- ✓ Single distribution cooling
- ✓ Cooling performance 866 W/m<sup>2</sup>

### Services

- ✓ Logistical support, the receival and storage of goods
- ✓ Self Service Portal

## Future upgrades

### Power

- ✓ Installed electrical power **3,8 MW**
- ✓ Distributed **redundant** power feeds (N+1)
- ✓ UPS systems **3,8 MW**

### Security

- ✓ Layered security, **mantrap to colocation with biometric 2FA**
- ✓ **24/7 onsite security**

### Fire safety

- ✓ **High Fog Watermist system** and early warning detection system

### Cooling

- ✓ **Bidirectional** cooling headers
- ✓ Cooling performance **1000 W/m<sup>2</sup>**

### Services

- ✓ Remote Hands
- ✓ Digital service requests through our Self Service Portal **MyNorthC**
- ✓ Monitoring Portal **CIMS**

All future upgrades are planned to be implemented by the end of Q4 2026.

# Digital business. Personal connections.

At NorthC, we believe that even in today's digital world, people remain the most important factor. That's why we consider excellent service and personalized care paramount. This is also the reason we choose regional locations for our data centers, aiming to be as close as possible to our customers. Additionally, our dedicated team proactively monitors the quality of the data center environments 24/7. If you have any questions, our support team is always here to assist you.
