Regional data centers
with international reach

Our data centers are spread across the Netherlands, Germany and Switzerland. We are located in the center of one of the most important digital hubs in Europe: the metropolitan region of Amsterdam, as well as in the heart of Bavaria in Germany and with Biel and Basel in the economically strong regions of Switzerland. We are convinced that a platform of regional data centers with a wide geographic reach allows our customers to optimize their redundant infrastructure and for them to benefit from regional ecosystems.

Sustainable Data Centers: Carbon Neutral by 2030

- ✓ Green hydrogen
- ✓ Green energy
- ✓ Data center waste heat
- ✓ Modular Construction

Our mission 2030

At NorthC, we are committed to consistent quality and reliability. That's why we are upgrading our Berlin 2 data center, which we acquired in August 2025, to our trusted NorthC standard. This ensures the same high level of availability, security, and continuity across all our locations.

Current facilities

Power

- ✓ Installed electrical power 0,9 MW
- ✓ Single power feeds
- ✓ UPS systems 4 MW
- ✓ Generator redundancy: according to Tier 2 standard, 2 x 2 MVA

Security

- ✓ Layered security, remote 24/7
- ✓ CCTV Monitoring and recording of all access points and circulation areas in office building and Colospace

Fire safety

- ✓ Dry pipe sprinkler system, early warning detection and smoke extract system

Cooling

- ✓ Single distribution cooling
- ✓ Cooling performance 750 W/m²

Services

- ✓ Logistical support, the receival and storage of goods
- ✓ Self Service Portal

Future upgrades

Power

- ✓ Installed electrical power **4 MW**
- ✓ Distributed **redundant** power feeds
- ✓ UPS systems **5 MW**
- ✓ Generator redundancy: according to **Tier 3** standard, **3 x 2 MVA**

Security

- ✓ Layered security, **mantrap to colocation and 24/7 onsite security**
- ✓ CCTV in Office building and colospace

Fire safety

- ✓ **High Fog Watermist system**, early warning detection and smoke extract system

Cooling

- ✓ **Bidirectional** cooling headers
- ✓ Cooling performance **2400 W/m²**

Services

- ✓ Remote Hands
- ✓ Digital service requests through our Self Service Portal **MyNorthC**
- ✓ Monitoring Portal **CIMS**

All future upgrades are planned to be implemented by Q1 2027.

Digital business.
Personal connections.

At NorthC, we believe that even in today's digital world, people remain the most important factor. That's why we consider excellent service and personalized care paramount. This is also the reason we choose regional locations for our data centers, aiming to be as close as possible to our customers. Additionally, our dedicated team proactively monitors the quality of the data center environments 24/7. If you have any questions, our support team is always here to assist you.
